

CAT SURRENDER FORM

Please note at this time we are not accepting any cat surrenders !!!

We have no space for cats/kittens, no fosters, no funding and we encourage people to book in to the feral cat program at evah london and evah kw for cost effective vetting.

**Please contact us first to confirm if we may know anyone who can help, as we
Are happy to network and share your pets needs.**

Note- The below is a check list to obtain info about your cats history , current routine and needs. This information we use to list for their bio on our rescue site as well as for when we cross-post a pets need to other rescues/ contacts when we have no immediate available / suited space. . It also ensures that rescue is screening any future applicants with the correct information thus ensuring the safest and most suitable placement. Without this information any catt could be placed into an environment which is not suitable which is then setting up the cat to develop issues and needing to be rehomed.
